

Fastpap FormerSprint
Effective 3D cleaning for forming fabrics

- Higher machine speeds
- Efficient fabric throughout its service life
- Smaller water consumption
- Fewer shutdowns
- Improved formation
- Fewer quality losses

Fastpap Press-Sprint
Cleaning for press felts

- Efficient press felt throughout its service life
- Small water consumption
- Fewer shutdowns
- Fewer quality losses
- Even dewatering profiles

Fastpap ComboSprint
Pioneering dryer fabric cleaning

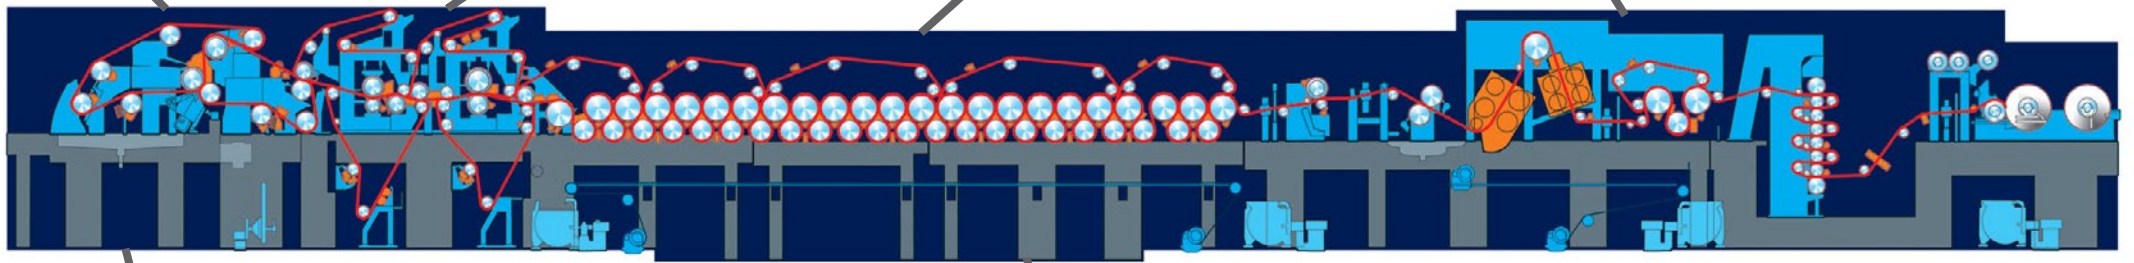

- Higher running speeds
- Fewer shutdowns
- Even moisture profile
- Lower energy consumption
- Longer fabric life time
- Less chemicals
- Better end-product quality

Fastpap LineSprint
Roll cleaning during the process

- Quick, efficient, online
- Top reliability
- Programmable
- Improved work safety
- Consistent product quality
- Fewer web breaks
- Savings in time and costs

Fastpap WetCut
Fast and accurate wet-end tail cutter

- Excellent tail width control
- Programmable tail widths
- Automatic positioning
- Steady, adjustable motion
- Manual operation possibility
- Top reliability

Fastpap SingleCut and TwinCut
Reliable tail cutters for threading success

- Steady, adjustable movement of the cutting jet
- No dust, no sharpening
- Programmable tail widths
- Faster threading
- Manual operation possibility
